Chief Engineer of Mysore.

V.W.S.

Letter No.99 dated the 17th August 1929, from the Executive Engineer, Sanitary and Town Planning Division, to the Chief Engineer of Mysore, Bangalore.

With reference to your No.2309 dated 14-8-1929, forwarding copy of letter No.L.804 dated 29th July 1929 from the General Secretary to Government, re the development of Mandya town, I have the honour to inform you that I had inspected the town a year ago on 27th and 28th August 1928 and a copy of the inspection Notes was sent to the Chief Engineer in this office No.113 dated 10/12th September 1928 and another copy to the Municipality in this office No.476 dated 10/12th September 1928 for their information and guidance. The Municipality had not sent any progress report of action taken on the points noticed in my inspection note for the information of this office except one report in May 1929 after a lapse of about 9 months.

According to the Government Order, the Municipality is supposed to send to the Government every month through the Deputy Commissioner a progress report on the action taken by them on these notes. This office is not aware if such progress reports are received by the Government or not. If not, it is better that the Government calls for such reports from them. This will give an idea as to what they are doing in the matter.

The town was surveyed by this Department and a map prepared and forwarded to the Municipality in this office No.2238 dated 15th January 1929.

Some designs for neat houses and cottages for the new extension of the town were also supplied to the Municipality with a memo of rules to be observed in controlling the building operations in the extension.

A project for the main drains of the town is prepared by this Department and is likely to be despatched to the Municipality in a fortnight's time.

Letter No. 463 dated the 5th September 1929, from the Executive Engineer, Sanitary and Town Planning Division, B'lore. to The President, Town Municipal Council, Mandya -

With reference to your No. 264/28-29 dated 13/14th April 1929, I have the honor to forward herewith, an estimate amounting to Rs 23,100/- for the construction of main and sub main -- drains at Mandya Town, together with a detail report. The -- Municipality should not be alarmed at the amount of estimate the work may be spread over a period of 5 to 6 years according to the resources of the Municipality by spending about Rs 3,- to 4,000/- a year. Besides, the Municipality may expect some help from the Town Improvement Grant, if the work is taken up in earnest. This work is very important from a public health point of view and as such, Municipality must make a beginning this year.

No establishment, tools and plant charges are included in the estimate, as it is proposed to be executed by the Municipality themselves, employing their own agency under the --- occasional supervision of this offfice.

T.R.S

(24

Letter No.475 dated the 9/10th September 1929, from the - - - Executive Engineer, Sanitary and Town Planning Division, to the ---- President, Town Municipal Council, Mandya.

With reference to your No.63/29-30 dated 6th August 1929 in respect of preparing and sending an estimate for the construction of a drain behind the Bazaar Street of Mandya Town, I have the honour to state that a scheme for the construction of main and sub-main --- drains for Mandya Town has been prepared at a cost of Rs 23,100/- and is forwarded to the Municipal Council in this office No.463 dated 5th September 1929. The particular drain referred to is also - - - provided in that project as sub-main No.III and IV (vide plan - - - accompanying the drainage scheme) to a length of 376' and 220' ----- respectively in the section of 3" silk pattern drain. But the ---- Municipality cannot lay this drain first independent of the main --- drain If they do so, they will simply transfer the nuisance from one place to another one a little distance away. Whereas if the -- main drain is laid first and then those sub-mains, the sullage water will be carried away at once outside the town far away from its ---- vicinity. The Municipality must, therefore, lay the following main drains L to K - K F E D and B to A - which are the continuation of the drains which the Municipality wants to do. This is the proper and rational way of executing a drainage scheme and it is hoped the Municipality would follow it. Undersigned would be pleased to give any other information they want in the matter. They are welcome to seek the advice of this Department whenever they desire in drainage and town improvement matters

SIR,

DRAINAGE SCHEME TO MANDYA TOWN.

With reference to your letter No. L. 3952/Ml. 71-29-11 dated 2nd December 1929 regarding the construction of drains in Mandya Town, I have the honour to submit herewith an extract from the resolution of the Municipal Council agreeing to complete the work within a period of 5 or 6 years, taking suitable grants from State Funds.

Estimates and Plans in duplicate for the Drainage Project received from the Executive Engineer, Sanitary and Town Planning, are enclosed, and I request that sanction of Government may kindly be obtained for the execution of the work, the estimate of which amounts to Rs. 23,100/-.

I may also add that out of the current year's Town Improvement allotment of Rs. 10,000/- sanctioned by Government in their order No. L. 1302-11/Ml.107-28-20 dated 21/26th August 1929, a sum of Rs. 2000/- has been sanctioned to Mandya Municipality for taking up a portion of the drainage project on the distinct understanding that the Municipality would also contribute a sum of Rs. 2000/- from Municipal Funds.

I request early orders of Government to take on hand the drainage project.

I have the honour to be,
Sir,
Your most obedient servant,

Sir,

I have the honour to enclose herewith the letter and report accompanying the Estimate received from Mr H J Marker, Executive Engineer, Sanitary & Town Planning Division, Bangalore, forwarding an estimate of Rs 23,100/- for the Constructions of Main and Sub-main Drains in Mandya Town. The estimate was placed before the Municipal Council and the Council have resolved to take up this work immediately and finish it in a period of 5 or 6 years with the help of the Government Grant- The resource of this Municipality is very poor and the amount at the reserve account at present is Rs 6000/- A Sum of Rs 2000/- Can be Spared from this Municipality every year and if an equal Sum is granted every year, this work Can be Completed in 6 years

This work is very important from the public Health point of view and I request that a Sum of Rs 2000/- may be granted this year out of the Town Improvement Grant- The work will be put in hand this year only Extract of the Proceedings is enclosed

for your kind perusal.

I Request that the Sanction of Govern
be kindly obtained for the working of the estimate
